PROFILE

Visual Communication student at the University for the Creative Arts with experience in branding, visual identity systems and applied graphic design across print and digital outcomes. Interested in developing clear and accessible brand communication through logo systems, brand guidelines and multi-platform visual design. Skilled in Adobe Creative Suite, visual research, organised project development and visual communication, with a strong interest in cultural communication and identity design for international audiences.

PROJECTS & EXPERIENCE

Nanchang City Symbols | Visual Identity System Project (Selected Academic Project) Feb 2026 - Jul 2026

- Developed a visual identity system introducing Nanchang, China to international tourists through simplified landmark icons and applied graphic design outcomes.
- Designed a cohesive visual identity system applied across postcards, stamps, calendars and tourism communication materials.
- Explored how visual symbols can communicate cultural identity across different languages and audiences through accessible and recognisable design.
- Developed layout systems, colour palettes and application mock-ups to maintain visual consistency across print and digital outcomes.

Tongfang Dingxin Technology Co., Ltd | Design Assistant Sep 2024 - Jul 2025

- Supported branding and visual communication projects through layout development, visual asset organisation and brand communication refinement.
- Produced and maintained presentation materials, reusable graphic resources and visual documentation to support consistency across design outcomes.
- Assisted with feedback implementation, file organisation and collaborative design workflows during project development.
- Contributed to the preparation of digital mock-ups and visual applications across print and screen-based formats.
